

Zoe Scripts and Westchase Compounding Pharmacy are pleased to provide you with more options in wound care treatment! Consider compounding as an adjunct therapy for your patients with diabetic or neuropathic ulcers, arterial ulcers, pressure ulcers, venous ulcers and more. All wounds are not created equal and our pharmacy can help you customize the right solution for your patient that increases the efficacy of your current treatments.

Our polyethylene glycol water-soluble gel base provides an ideal occlusive barrier to protect the wound for prolonged period to maintain ideal temperature for wound healing.

Compounded topical wound care can help accelerate the healing process by combining ingredients that help to:

- Stimulate re-growth of healthy cells for tissue healing.
- Increase blood flow
- Target antibiotic therapy to attack suspected wound causing organism.
- Reduce pain
- Inhibit fungal cell membrane formation
- Attenuate inflammatory process

Compounded Topical Wound Care has many advantages:

- Single formula with various medications provides multiple benefits simultaneously.
- Customize the treatment to individual patient needs.
- Site directed, locally concentrated. Not dependent on systemic circulation.
- Simple process increases patient compliance
- Reduce wound care costs to patient with multiple meds in one cream or ointment.

Why Use Zoe Scripts and Westchase Compounding Pharmacy?

- PCAB (Pharmacy Compounding Accreditation Board) accredited
- *Affordable options when insurance does not cover compounding.*
- *Co-Pay Assistance* through a third party for qualified patients.
- Superior Customer Service
- Free Shipping within 48 hours to your patients.

I look forward to partnering with you in meeting the challenges of treating your patients with our wide range of services. If you would like for me to follow-up, or if you have any questions please feel free to contact me at the contact information below.

Sincerely,
Jane Doe
