

## The Opportunity

Every day millions of people worldwide hear the gospel and gain access to God's Word online, presenting a new opportunity: How do we connect these people to a local church for further discipleship?

**Unite Life provides a bridge so every person can connect with a healthy Christian community.**

Our team created a system that reaches seekers online through a comprehensive digital strategy, connects each person to a local church, and provides follow-up to track and measure their ongoing discipleship. We believe through leveraging technology and developing key partnerships, Jesus' commission to make disciples of every tribe, tongue, and nation will be fulfilled in our generation.

## How it Works

### REACH

Work with partners to share the Gospel, engage seekers, and provide a digital Bible through the internet.

### CONNECT

Engage with church networks to connect these seekers into local churches.

### FOLLOW-UP

Follow up with seekers to track their progress and collect their stories of transformation.

## Measuring Success

The Unite Life Platform maps measurable outcomes of transformation as individuals grow through the discipleship process by tracking: Decision of Faith, Bible Engagement, Baptism, Church Engagement, and Testimony Collection through follow-up. Ministry Partners can track and map digital responses, connections, engagement, and church networks in real-time.

### Over the Last 12 Months

Gospel Presentations\*

13,324,681

Confirmed Church Connections\*

6,949

Total Churches in Network\*

4,975

## Our Impact

The Unite Life Platform currently utilizes eight languages through three Connect Centers (India, Central Asia, and China) to respond to seekers, train church hosts, and help the church network grow in each country.

\*Gospel Presentations - A presentation of the gospel is viewed online.  
\*Confirmed Church Connections - Church connection made by a Host and/or Connect Team member in country.  
\*Total Churches in Network - Churches added to the Unite Life Platform.
